SUB: STATIONERY - paper - unbleached variety - use of.

Against 2500 tons of printing paper indented for, during 1950-51, the paper directorate allocated only 1640 tons of paper. Of this the allocation on the mills who are in a position to supply bleached paper, is 1040 tons, 200 tons have to be reserved for supply in reels and the balance of 840 tons will be in flat sheets. The 840 tons includes 300 tons of paper allocated to M/s Sirpur Paper Mills which cannot be relied on for supply in time as per schedule. Hence only a balance of 540 tons is available from sources capable of supplying bleached variety. Excluding a quantity of 140 tons of paper required in special sizes only 400 tons of bleached paper is available for procurement in foolscap and multiple sizes and this has to be spread over four quarters in the year. The Superintendent, Government Press, Madras recently requisitioned large supply of white paper in foolscap, and quad sizes for printing various forms, note sheets, draft sheets, journals etc., The stock position of white paper does not admit compliance in full. I therefore suggested to the Supdt., Govt. Press to limit his indent for white paper to only those items for which white paper is absolutely necessary and to use unbleached paper for all other purposes. He has agreed to do so. I therefore suggest that Government may be pleased to circularise all departments of the Secretariat and Heads of Departments not to insist on printing on white paper until the position improves.

ORDER:

The stock position of bleached paper with the Supdt. of Stationery is not satisfactory,. The S.G.P has been advised to lim his indent for white paper to those items of work for which that variety of paper is absolutely essential and to use unbleached pa for all other purposes. Deptts. of the Secretariat and Heads of Departments including Collectors are accordingly requested not to insist on printing being done by the Govt. Press on white paper until the Supdt., of Stationery receives fresh stocks of t paper.
